CITY OF FIFE HOSTS ONLINE OPEN HOUSE FOR PARKS, RECREATION, AQUATICS AND OPEN SPACE (PROS) PLAN AND SITE MASTER PLAN

Fife, WA — The City of Fife seeks community feedback on top priorities and park concepts to include in the city’s Parks, Recreation, Aquatics and Open Space (PROS) Plan and site master plans for Cappa Park and Levee Pond Park.

Community members can view and provide feedback at their convenience during an online open house, scheduled from **Wednesday, July 28 to Wednesday, August 11, 2021**.

The PROS Plan will outline a framework for the conservation, improvement and potential expansion of city recreation facilities, amenities and parks to address the specific needs of the community for today and in the future. The site master plans for Levee Pond Park and Cappa Park will guide future improvements of those open spaces.

The online open house is an invitation to all Fife residents, workers and commuters to participate in setting the priorities and services for parks and recreation in the community.

To participate in the open house, attendees will view information about the plans, and then take brief surveys to provide feedback. To participate in the online open house, visit [FifeParksPlan.com](https://www.cityoffife.org/pros) from July 28 – August 11.

For more information, please visit [cityoffife.org/pros](https://www.cityoffife.org/pros).
