**GENERAL NOTES**

1. All surfacing and paving depths shown are final compacted depths see the standard specifications for maximum lift per material depth.

2. Unless otherwise shown, embankment shall meet material requirements of眼看 Borrow./WSDOT Standard Specification 938-B3. See wall plans as specified for embankment requirements within these areas. See landscape plans for landscape depths and requirements.

3. All dimensions are in feet unless otherwise specified.

4. For bridge sections refer to sheet BM19
